Investing in ergonomic solutions ensures the comfort of you and your employees, allowing everyone to work at their highest potential.

Don't risk your productivity and health. Try a sit/stand desk and experience the difference yourself...

Get  
INSPIRED.

# The benefits of a HEIGHT ADJUSTABLE DESK

## Increase energy levels

Small movements and active moments throughout the day help you stay awake and alert - adding a few periods of standing can help you get back some of that energy and enthusiasm

## Improve productivity and focus

Studies have shown that in some offices the introduction of standing desks increased productivity by 46%! Seamlessly switch between sitting and standing without the constant breaks

## Improve posture

When regularly standing, the right posture position becomes second nature and won't put compression on your spine that sitting can

# Why choose SMART LIVING?

## Account Manager

Supporting you from start to finish - whether it's over the phone or face-to-face

# Height Adjustable Desks

# THE STANDOUT OPTION.

## Say hello to the ORKA Jupiter.

Whether you require a compact desk for a small home office or a spacious workstation for multi-tasking, the ORKA range has you covered.

Moving from a sitting to a standing position promotes positive health benefits including increased productivity levels. The ORKA Jupiter glass desk gives flexibility throughout your working day by allowing you to transition seamlessly without the need to clear your desk.

Establish your perfect working height from the touch sensitive control panel and pre-set your favourite positions using the 4 x programmable memory settings (720-1210mm).

This robust desk is equipped with durable steel powder-coated legs and a maximum loading capacity of 50kg. It also features multiple charging points, including 2 x USB ports and 1 x USB-C port, so you can keep all your devices fully charged throughout the day.

Boasting an adjustable height feature, robust construction, and effortless assembly, these desks offer the perfect blend of convenience and comfort.

# Ergonomic and Home Office Chairs

# THE ERGONOMIC CHAIR

## for comfort throughout the working day

Designed to provide maximum comfort and support for your body, ergonomic chairs help reduce strain on your back, neck, and shoulders, which can lead to reduced fatigue and improved productivity.

Ergonomic office chairs have adjustable features - like seat height and armrests - that allow you to customise the fit and make sitting at a desk more comfortable.

The Koble Maja Ergonomic Chair offers lumbar support with its curved, Italian-made mesh back, and an ultra-soft back support giving it a 24 hour usage rating.
